UCHS TENANT FIT-OUTS

Clinical Design for Multiple Designs

Polt Design Group is on-call and Upper Chesapeake Health's "go-to" design team according to Mr. Don Allik, the Director of Facilities at Upper Chesapeake Health located in Bel Air, MD and Havre de Grace, MD.

Examples of departments that have been designed by our team over the last 10 years in the 4 story Ambulatory Care Center (ACC) are radiology, outpatient surgery, dermatology, cardiology, podiatry, optometry, urology, dialysis, angiography, ultrasound, endoscopy, anti-coag unit, pharmacy, nuclear medicine, neurology, gynecology, as well as the administration and billing for the entire campus.

We have also provided well over a dozen design renovations/retrofits within the UCHS hospital located on the same campus, which is connected by a corridor to the ACC facility.
